Meridian Design Build recently completed design/build construction work on a 76,320-square-foot expansion to an existing seasonings plant in Sturtevant, Wis., for Kerry Ingredients & Flavours. This marks Meridian's fourth project for Kerry since 2009.

The building includes 10 new loading docks and dedicated warehouse space for spice storage. Meridian also completed interior renovation work that included the construction of new blending cells, the expansion of existing employee facilities and the relocation of QA facilities to accommodate increased output at the facility.
