

Equipment rental company receives new suburban warehouse space

ELGIN, Illinois | Meridian Design Build completed construction of 29,600 square foot warehouse space for Audio Visual Services Group on behalf of developer Interstate Partners LLC at 2530 Galvin Drive in the Northwest Business Park.

Shell building modifications were completed to provide three loading docks, one drive-in door and accommodations for exterior trailer parking. Meridian also coordinated installation of electrical wiring. Harris Architects Inc. was the designer and Cowhey Gudmundson Leder Ltd. was the civil engineer.

Audio Visual Services rents audiovisual equipment to event-production companies, trade associations and hotels internationally.
