

Meridian Design Build Completes Second Expansion for Morey Corporation

Meridian Design Build has completed an 81,000 square foot addition for electronics manufacturer The Morey Corporation in Woodridge, IL. Located within Internationale Centre, this expansion is the 2nd building addition completed by Meridian Design Build for the growing company within the last 2 years.

The expansion includes 45,000 square feet of temperature and humidity controlled manufacturing space, 28,000 square feet of raw material and finished goods warehousing, and 8,000 square feet of employee welfare space including restrooms, cafeteria space, and meeting areas.

As a part of the project scope, Meridian coordinated the design and installation of a significant amount of in-floor electrical duct, natural gas distribution, and compressed air piping. Anti-static flooring was installed throughout the manufacturing areas. Site improvements included 194 new parking spaces and 4 additional loading docks.

The design team for the project included Oak Park based architect Schmidt Design and civil engineer Manhard Consulting Ltd. Peter Stadler, Senior Vice President, and Jim Cather, Senior Superintendent, handled the project for Meridian Design Build.

For more than 70 years, The Morey Corporation has been the low-cost provider of advanced reliable hardened electronics. The company has long-term manufacturing relationships with industry leaders including Caterpillar Inc., International Truck and Engine Corporation, CNH Global N.V., and Rockwell Collins, Inc. Morey is at the forefront of innovation in electronic product development and manufacturing for the telematic, display, and controller markets.
