Meridian Design Build wraps 48,000-square-foot industrial expansion in Wisconsin

February 15, 2018 | [Staff Writer](#)

Meridian Design Build recently completed construction of a 48,200-square-foot warehouse expansion for GE Healthcare and Exeter Property Group in Oak Creek, Wisconsin.

The addition brings the total size of the facility to 328,028 square feet.

The project features LED lighting, six loading docks and two high-speed doors connecting the new space to the existing building. Construction began in late August of 2017 and wrapped in January of this year.
