

Meridian Constructs Truck Terminal for CenterPoint Properties in Joliet, Illinois

Posted on April 13, 2018 by Kristin Hiller in Development, Illinois, Industrial, Midwest

The facility is located within the CenterPoint Business Center.

JOLIET, ILL. — Meridian Design Build has completed construction of a 112,500-square-foot truck terminal for CenterPoint Properties in Joliet. The new facility is situated on a 46.4-acre site within the CenterPoint Business Center. The redevelopment project includes 17,930 square feet of office space, 169 loading positions and two drive-in doors. An adjacent 22,176-square-foot maintenance building features 17 fully equipped service bays. Cornerstone Architects provided architectural and structural design services, while Manhard Consulting completed civil engineering design.
