The building, constructed for Land and Lakes Development, includes 10 loading docks, two drive-in doors and 153 parking spaces.

MOUNT PLEASANT, WIS. — Meridian Design Build has completed construction on a 132,002-square-foot speculative industrial facility in Mount Pleasant. The building, constructed for Land and Lakes Development, includes 10 loading docks, two drive-in doors and 153 parking spaces. The facility, located about one mile east of I-94, is the first to be built in Land and Lakes' new 60-acre Mount Pleasant Business Park, which has the potential to accommodate up to 800,000 square feet of new construction. Harris Architects provided architectural services and Pinnacle Engineering Group provided civil engineering work for the project.
