Meridian starts construction on SE Wisconsin spec building

February 7, 2018 | [Staff Writer](#)

Meridian Design Build recently started construction on a 307,850 SF speculative industrial facility for Land and Lakes Development in Mount Pleasant, WI. The 32-foot clear building offers 40 loading docks, four drive-in doors, 242 auto parking spaces and 94 trailer stalls. The facility is designed to accommodate up to six tenants.

This is the second project Meridian has constructed within the 60-acre Mount Pleasant Business Park. The first building, now leased to Goodwill Industries, was sold by Land and Lakes Development to Zilber Property Group in 2017. Architectural services are being provided by Partners in Design and civil engineering work is being completed by Pinnacle Engineering.
