### MERIDIAN COMPLETES KUBOTA ENGINE HEADQUARTERS EXPANSION IN ILLINOIS

LINCOLNSHIRE, ILL. — Meridian Design Build has completed a 100,280-square-foot building expansion to Kubota Engine America's headquarters in Lincolnshire. The expansion includes 81,880 square feet of additional plant/warehouse space and 18,400 square feet of space designed to serve as future offices. Site improvements were also completed to create more employee parking to accommodate Kubota's future growth. Kubota is a manufacturer of compact diesel and gasoline engines. Timothy Morgan Associates provided architectural services for the project, and Manhard Consulting completed the civil engineering work.
