Meridian Breaks Ground on Construction of Hotel

Meridian Design Build recently broke ground on an 85,000SF Staybridge Suites Hotel in Bowling Green, Kentucky for Wellspring Investment, LLC. The new 124 suite extended stay hotel consists of studio, one, and two bedroom layouts and features the new Vista design scheme which emphasizes the use of green materials and minimizes impacts to the environment.

The new hotel is adjacent to Western Kentucky University's Knicely Conference Center and will service the many visitors to its recently expanded facilities. It is the first hotel to be constructed on the city's rapidly expanding Southwest side and will feature key amenities such as generous public gathering spaces, customizable in-suite storage, ample desk work space, and a swimming pool for leisure guests.

Joe Blanchard, Project Manager and Fred Jennings, General Superintendent will be coordinating construction efforts for Meridian Design Build. Adkisson & Associates Architects, Inc. is providing architectural services and Arnold Consulting Engineering Services, Inc. is acting as civil engineer for the project. The hotel will be managed by Dellisart LLC of Roswell, Georgia upon its completion in the Fall of 2012.

Operating under the Intercontinental Hotels Group (IHG), there are over 180 Staybridge Suites throughout the United States, Britain, Canada, Mexico, and Latin America. This hotel brand specializes in high end rooms that provide the option of an extended stay by offering spacious suites, full kitchens, and upscale amenities. More information on Staybridge Suites can be found at www.staybridge.com.

Meridian Design Build, a Member of the U.S. Green Building Council, offers full-service design/build and general contracting services to the office, retail, hospitality, industrial and commercial markets. More information on Meridian Design Build can be found at www.meridiandb.com.
