## **Meridian Design Build Breaks Ground on Morey Corporation Innovation Center**

(September, 2006) – Paul Chuma, President of Meridian Design Build LLC, is pleased to announce that ground has been broken on a new 26,300 square foot 2-story expansion for Morey Corporation's Global Headquarters. Located in Internationale Centre, Woodridge, Illinois, this expansion will be an addition to the 95,100 square foot facility built in 1999.

Scheduled for completion in the first quarter of 2007, the building's main purpose will be to serve as a state-of-the-art technical development, engineering and testing facility for all products developed by The Morey Corporation. The facility features large volume spaces with a partial basement leading to an underground parking facility, laboratory and testing facilities, prototype display areas and a center for engineering design.

The design team for this project includes project architect, Oak Park, IL-based Schmidt Design and civil engineer, Vernon Hills, IL-based Manhard Consulting Ltd. Peter Stadler, Vice President, is heading up the project for Meridian Design Build.

For more than 70 years, The Morey Corporation continues to be the low-cost provider of advanced reliable hardened electronics. The company has long-term manufacturing relationships with industry leaders including Caterpillar Inc., International Truck and Engine Corporation, CNH Global N.V., and Rockwell Collins, Inc. Morey is at the forefront of innovation in electronic product development and manufacturing for the telematic, display, and controller markets. Additional information about Morey Corporation can be found at [www.moreycorp.com](http://www.moreycorp.com).

Meridian Design Build offers full-service design/build and general contracting services to the manufacturing, distribution, office and commercial markets. Meridian offers a full range of construction services, including all phases of construction planning and management, from conceptual design and budgeting, through project completion. More information on Meridian Design Build can be found at [www.meridiandb.com](http://www.meridiandb.com).
