Meridian Tops Out on Staybridge Suites Hotel

Meridian Design Build recently topped out construction on an 85,000SF Staybridge Suites Hotel in Bowling Green, Kentucky. The three-story, 124 suite hotel includes studio, one, and two bedroom layouts with fully equipped kitchens to accommodate the needs of business travelers and other extended stay guests.

The new hotel incorporates the brand's Vista scheme which seeks to reduce environmental impacts through sustainable material selections. Other amenities include an outdoor pool, BBQ pavilion, exercise facility, and onsite meeting rooms. The site, immediately adjacent to Western Kentucky University's Knicely Conference Center, affords the new hotel an opportunity to provide convenient hospitality to event visitors.

Joe Blanchard, Project Manager and Tom McNett, Senior Superintendent are coordinating the project for Meridian. Architectural services are being provided by Adkisson & Associates Architects, Inc. and civil engineering work is being completed by Arnold Consulting Engineering Services, Inc. Development manager Dellisart LLC of Roswell, Georgia will also oversee hotel operations upon its completion and planned opening in November of this year.

Meridian Design Build, a Member of the U.S. Green Building Council, offers full-service general contracting and design/build services to the industrial, office, healthcare, retail, hospitality, and commercial markets. More information on Meridian Design Build can be found at www.meridiandb.com.
