

Meridian Design Build has been selected by C.R. Laurence to coordinate the renovation of a recently acquired 90,000-square-foot manufacturing facility at 5501 W. Ogden Avenue in Cicero.

An extensive amount of interior demolition, reconfiguration, and electrical work is planned to update restrooms/locker rooms, lunchrooms, and plant offices. The project is being completed on a design/build basis with the assistance of Itasca-based Heitman Architects. Ryan Brandush, project engineer, and Tom McNett, senior superintendent, are handling the project for Meridian Design Build.
