

Meridian Design Build has broken ground on an 81,000-sq.-ft. addition for electronics manufacturer, The Morey Corporation, in Woodridge within Internationale Centre. The expansion includes 45,000 sq. ft. of temperature and humidity controlled manufacturing space, 28,000 sq. ft. of raw material and finished goods warehousing, and 8,000

sq. ft. for restrooms, cafeteria space, and meeting areas. Site improvements include 194 new parking spaces and 4 new loading docks. The design team includes Schmidt Design as architect, and civil engineer, Manhard Consulting Ltd. Peter Stadler, senior vice president, is coordinating the project for Meridian Design Build.
