## **Meridian Completes Self-Storage Project**

Meridian Design Build recently completed construction of an 81,543 SF self-storage facility in Wheaton, IL for The Lock Up. The building is located adjacent to the Main Street Marketplace shopping center at the northwest corner of Main Street and Geneva Road.

The new four-story facility offers climate controlled and drive-up units and features covered loading bays with secure access to accommodate the needs of its clients. Meridian Design Build completed the construction of a 73,000 SF self-storage facility for The Lock Up in Bonita Springs, Florida in late 2013, making the facility in Wheaton the second that Meridian has constructed for the brand.

Architectural services were provided by Partners in Design Architects and civil engineering work was completed by Watermark Engineering Resources, Ltd.

Meridian Design Build, a Member of the U.S. Green Building Council, offers full-service general contracting and design/build services to the industrial, office, healthcare, retail, hospitality, and commercial markets. More information on Meridian Design Build can be found at [www.meridiandb.com](http://www.meridiandb.com).
