## **Meridian Completes Southeastern Wisconsin Project**

Meridian Design Build recently completed design/build construction work on a 76,320 SF expansion to an existing seasonings plant in Sturtevant, WI for Kerry Ingredients & Flavours. This was Meridian Design Build's fourth project for Kerry since 2009.

The fully air-conditioned building addition includes 10 new loading docks and dedicated warehouse space to accommodate spice storage. Meridian also completed significant interior renovation work within the existing plant including construction of new blending cells, the expansion of existing employee facilities, and relocation of QA facilities to accommodate increased production output at the facility. 36 additional parking stalls were added to serve the needs of the larger facility.

Architectural services were provided by Harris Architects; Pinnacle Engineering Group was engaged to complete civil engineering work for the project.

Meridian Design Build, a Member of the U.S. Green Building Council, offers full-service general contracting and design/build services to the industrial, office, healthcare, retail, hospitality, and commercial markets. More information on Meridian Design Build can be found at [www.meridiandb.com](http://www.meridiandb.com).
