Meridian Design Build Begins Work on Ohio Spec Project

Meridian Design Build was recently selected by developer Scannell Properties to coordinate the construction of a new 207,360 SF speculative industrial building in Twinsburg, OH.

The multi-tenant facility, located on a 14-acre site within Cornerstone Business Park, will include 171 auto parking stalls, five tenant entrances, and 26 loading docks. Leasing activity for the project has been strong and it is likely that a lease will be signed for a significant portion of the building prior to its scheduled completion in late summer of this year.

Architectural services are being provided by Precept Design, LLC. Civil engineering work is being completed by Weber Engineering Services.

Meridian Design Build, a Member of the U.S. Green Building Council, offers full-service general contracting and design/build services to the industrial, office, healthcare, retail, hospitality, and commercial markets. More information on Meridian Design Build can be found at www.meridiandb.com.
