Meridian Completes Food Manufacturing Facility Renovation in Wheeling

Meridian Design Build recently completed the design-build renovation of a 115,000 SF building in Wheeling, IL for Richelieu Foods, a private label and contract package food company. The new plant includes nine refrigerated loading docks, a 20,500 SF refrigerated warehouse, 33,500 SF of production space constructed to meet stringent USDA standards, and a 3,250 SF freezer.

Meridian's work included the conversion of an ambient warehouse to a refrigerated production space, installation of new high-speed doors, installation of new stainless steel floor drains and epoxy flooring, and a significant amount of electrical, compressed air, and process water distribution to accommodate Richelieu's production equipment. The building, located at 120 W. Palatine Road, is Richelieu's fifth operating plant.

Meridian Design Build, a Member of the U.S. Green Building Council, offers full-service general contracting and design/build services to the industrial, office, healthcare, retail, hospitality, and commercial markets. More information on Meridian Design Build can be found at www.meridiandb.com.
